KONYA

Konya is one of the first inhabited cities in the history of mankind, and still contains traces of any ancient civilisations which gives it the atmosphere of a museum city. Because of its locations in the middle of the barren Anatolian steppe, it used to be one of the most important trading centers on the Silk Road.

MEVLANA

Mevlana who is also known as Rumi, was a philosopher and mystic of Islam, but not a Muslim of the orthodox type. His doctrine advocates unlimited tolerance, positive reasoning, goodness, charity and awareness through love. To him and to his disciples all religions are more or less truth. Looking with the same eye on Muslim, Jew and Christian alike, his peaceful and tolerant teaching has appealed to men of all sects and creeds.
